

Rollforming Equipment and Dies

Your success and Dreistern equipment go hand in hand

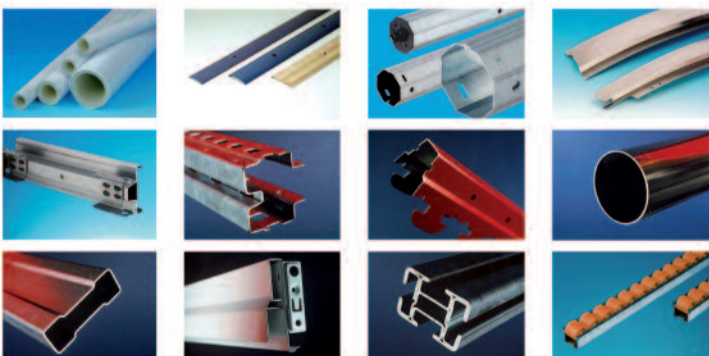

Trend setting solutions are the key to meeting demands of an innovative and constantly evolving rollforming market.

Difficult materials, complicated cross sections

Support during product development, this too is Dreistern.

New products are the basis for success. Successful companies average more new product launches. Let's discuss together how to reveal new product ideas fast and systematically

– Dreistern eagerly accepts these challenges

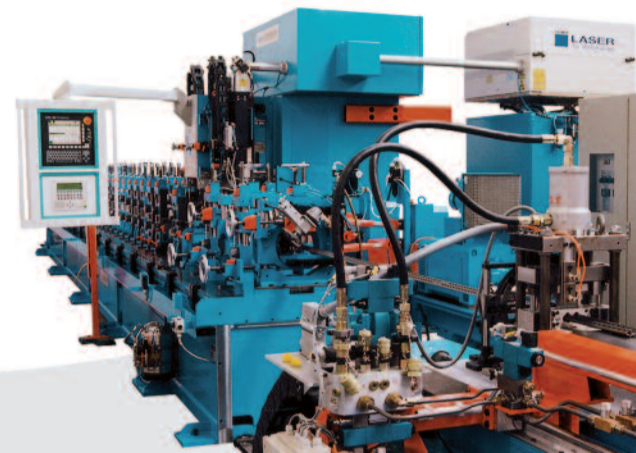

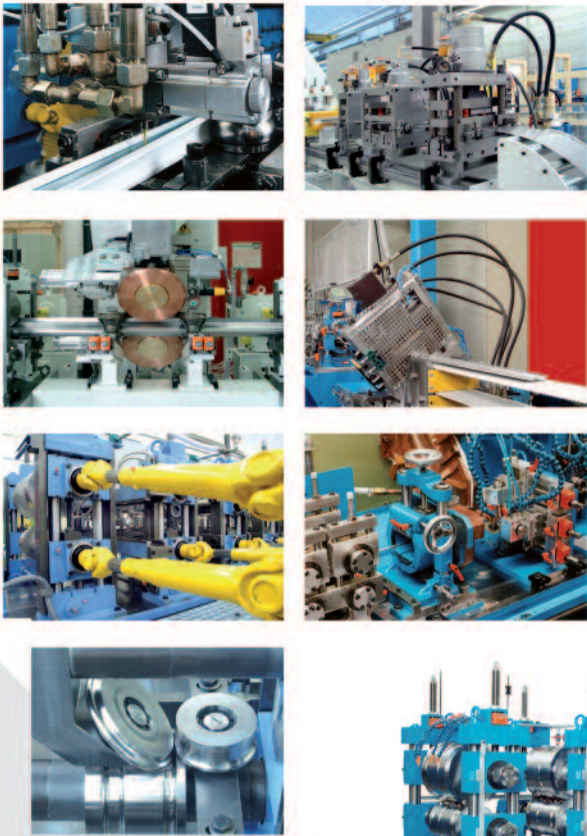

Optimal equipment, one client at a time

Modern systems with low operating costs

Dreistern's trademark is reliable equipment featuring technology tailored to your day to day production requirements.

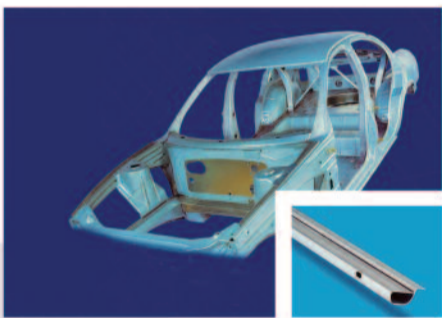

Our modular designs enables it all, from standard machines to complex turn-key installations including stamping, welding and cutting off.

State of the art quick-change and automatic coupling technology improves equipment uptime dramatically.

Premium products ensure your success

Dreistern rollforming machines manufacture winning products, increasing your market share and profit margin.
